

PERKINS SERVICE AGREEMENT

Perkins® Hypercare

Plan maintenance. Minimise downtime.

A flexible service agreement combining Perkins genuine parts, planned maintenance and technical support, tailored to each engine's application, operating conditions and lifecycle.

1 A plan tailored to your operation

Service content and intervals are defined according to the application, operating hours and working conditions.

2 Perkins parts and expertise

Scheduled work combines Perkins genuine parts with the technical expertise of the COMAPIRE team.

3 Better cost visibility

Planned maintenance helps you anticipate expenditure and reduce the risk of unplanned work.

4 Documented maintenance

A clear service history makes it easier to monitor the engine and plan upcoming maintenance.

Request a tailored proposal

To prepare a tailored proposal, provide each engine's model and serial number, application, location and operating hours, together with the number of engines concerned.

For information only. Service content, maintenance intervals, eligibility requirements and pricing are specified in each contractual proposal.
